FDA,

This letter is written with re-
gard to the following dockets:
98N-1230; 96P-0418; 97P-0197.

In my own words I wish that more
must be done by the FDA than pl-
acing warning labels/Bacteria on
egg cartons and regulate egg re-
frigeration temps. I belive that
y'all should prohibit the pract-
ice of forced-molting because such
has been scientifically shown to
promote disease by destroying the
starving hens' immune systems.
The FDA has the right to ban this
farm practice.

The FDA ought ban forced molting
because this practice is bad for

>

C35

the hens, eggs, and the consumers of the eggs!!! CRUELTY & CONTAMINATION 'R'
LINKED!!

Lastly, the FDA was petitioned in April of 1998 to ban forced-molting and it
is my wish that this petition be granted without further delay.

Thanks for listening,

A handwritten signature in cursive script, appearing to read "Lynne", with a horizontal line drawn underneath it.
